

Quality Policy

Asteral Limited is committed to providing services, which completely satisfy the expectations of its customers.

We implement documented procedures for all functions aimed to meet requirements of BS EN ISO 9001:2015 and which provide a framework for establishing and reviewing the Company Quality Objectives. The Company is committed to Continuously Improve the effectiveness of the Business Management System and the service we provide our customers.

The Quality Representative has the authority and responsibility to ensure that documented systems and procedures are prepared, maintained and implemented to ensure compliance with company policy, customers' requirements and the Business Management System. The Quality Representative shall also ensure that any amendments to the Standard referred to above continue to be reflected in the Business Management System.

In its quest for excellence and continual improvement, the company ensures that all staff are suitably trained, and are provided with appropriate resources to meet customer as well as statutory and regulatory requirements. The Company ensures effective implementation and maintenance of its Quality Management system through the Internal Audit process.

Environmental Policy

Asteral Limited is committed to prevent pollution so far as is reasonably practicable in all business activities associated with the services we provide our customers.

We have identified our significant environmental aspects which provide a framework for establishing and reviewing the Company Environmental Objectives and Targets. We are committed to Continuously Improve our Environmental Efficiency and are committed to ensure complete compliance to applicable Legal requirements as well as other requirements pertinent to our specific Environmental Aspects. In particular, we will promote Environmental Best Practice to enable our clients to improve their own environmental performance.

In addition to this, we will:

- manage and reduce our own environmental aspects and impacts,
- undertake regular reviews of our operations, measure and maintain our existing environmental performance and where possible make improvements,
- undertake environmental risk assessments in order to identify significant environmental aspects and impacts,
- provide technically competent services and professional solutions that help to conserve and protect the environment,
- raise environmental awareness with our staff, suppliers, subcontractors, clients, end users, and those other organisations with whom we have contact,
- consider sustainable criteria, LCA on plant and equipment and encourage the use of sustainable resources, designs and practices over the whole life cycle of the services we provide.

We are serious about the policies we have declared. These have been established and agreed and endorsed by the Directors of our Company. We have documented and implemented our Business Management System, compliant with the requirements of BS EN ISO 9001:2015 and BS EN ISO 14001:2015.
